To Whom It May Concern

I am delighted to recommend **Priyanshi Sharma**, who has successfully completed an internship as a **Data Science and Data Analytics Intern** at **CollegePur**. During this period, she worked on live projects and contributed effectively to the assigned tasks with dedication and responsibility.

Priyanshi worked primarily on machine learning models for GATE Exam and TG EAMCET, contributing to data preprocessing, analysis, and model development. She also worked on web scraping for College360, collecting and organizing data from university and college sections.

Throughout the internship, she displayed strong learning ability, creativity, and professionalism. The quality of her work was consistently good, and she remained punctual, collaborative, and responsive to feedback. She also demonstrated good communication skills and the ability to adapt quickly to changing requirements.

Based on her overall performance, I strongly recommend **Priyanshi** for future internships and job opportunities. I am confident that she will prove to be an asset to any organization she joins.

Sincerely,
Gaurav Shukla
